

STRATEGIA DI GARA

Entrambe correte tutti gli 8 km. Alle stazioni lavora una alla volta. Questo è lo split: pezzi corti, tanti cambi puliti, un solo cambio lungo sul row.

- DOUBLES MIXED
- MEN OPEN LOADS
- YOUR SPLIT

REGOLE HYROX DOUBLES

- 1. Correte tutte e due gli 8 x 1 km. Le corse non si dividono.
- 2. In stazione lavora una atleta per volta. L'altra resta nell'area, pronta, senza toccare l'attrezzo.
- 3. Potete cambiarvi quando volete. Non potete spingere, tirare o lanciare in due nello stesso momento.
- 4. Si esce dalla stazione solo a lavoro finito. Distanza o reps incomplete = penalità.
- 5. Mixed Open usa i carichi uomo: sled push 152 kg, sled pull 103 kg, farmer's 2 x 24 kg, lunges 20 kg, wall ball 6 kg.
- 6. Lei tira al target donne 2,70 m. Lui al target uomini 3,00 m. Stesso pallone da 6 kg.
- 7. Standard da rispettare: squat sotto il parallelo sulle wall ball, anche estese in cima, no no-rep. Sled: tutta la slitta oltre la linea.

COME CI DIVIDIAMO

STAZIONE	SPLIT DI GARA	LEI FA
Ski 1000 m	250 m a testa, due volte ciascuno. 4 pezzi.	2 x 250 m
Sled Push 50 m	6,25 m a testa (metà corsia da 12,5 m), 4 volte ciascuno. 8 pezzi.	4 x 6,25 m
Sled Pull 50 m	Uguale al push: 6,25 m, 4 volte ciascuno.	4 x 6,25 m
Burpee Broad Jump 80 m	Cambio ogni 6 burpee a testa, fino a fine 80 m.	Giri da 6
Row 1000 m	500 m a testa. Un solo cambio, per perdere meno tempo.	1 x 500 m
Farmer's 200 m	50 m a testa. 4 pezzi, 4 cambi. Due volte ciascuno.	2 x 50 m
Lunges 100 m	25 m a testa, oppure 10 passi. 4 pezzi, 4 cambi.	2 x 25 m
Wall Balls 100	10 a testa, a ruota, fino a 100. Lei 2,70 m / lui 3,00 m.	5 x 10

IN ALLENAMENTO

Ogni circuito del piano usa questi pezzi, non le distanze da single. Se ti alleni da sola, fai SOLO la tua quota e resta ferma per il tempo del partner. Il cambio si allena quanto il pezzo.

CAMBIO

Chi arriva è già bassa sullo sled, già sui pedali, già con le kettlebell a terra. Non far morire lo sled a metà corsia. Sul row: un salto solo a 500 m, damper 6 già pronto. Wall ball: 10 e via, niente serie a cedimento.

25-DAY DOUBLES PLAN

Advanced hybrid block for a strong runner stepping into HYROX Doubles Mixed. Station skill first. Men's Open loads. Finish fresh more often than not.

- STRENGTH
- RUNNING
- HYROX

YOUR 25-DAY TARGET

Arrive able to run all 8 × 1 km and execute the exact Doubles split on page 1 — 250 m ski, 6.25 m sled hits, 500 m row, 50 m farmers, 25 m lunges, 10 wall balls, 6 burpees. Twenty-five days is specificity, not a new engine.

THE RULE THAT MATTERS

Circuits train the race split only. Thursday with run, Sunday no-run. When you train alone, rest exactly as long as the partner's piece. Gym stays maintenance. One threshold run in Week 2. One ~60% rehearsal in Week 3.

YOUR WEEKLY STRUCTURE

MONDAY	Gym 1 — Legs / shoulders, maintenance
TUESDAY	Easy Zone 2, or one quality session in Week 2
WEDNESDAY	Gym 2 — Chest / back
THURSDAY	HYROX — Run-focus circuits
FRIDAY	Gym 3 — Hinge, grip, carry support
SATURDAY	Easy / endurance run
SUNDAY	HYROX — No-run station technique

Set the plan up once. Then train.

RUNNING ZONES

Threshold 4:50/km. Zone 2 5:35–6:10/km. Zone 3 5:10–5:30/km. Zone 4 4:45–4:55/km. Doubles race running 5:05–5:20/km — not threshold.

Z1 Recovery

Walk / shake-out

Z2 Easy

5:35–6:10/km

Z3 Steady

5:10–5:30/km

Z4 Threshold

4:45–4:55/km

Z5 Very hard

Short work only

Doubles race run

5:05–5:20/km

RUN WARM-UP

8–10 min easy Zone 1–2 before every run. From a 4:50/km threshold: Zone 2 ~5:35–6:10/km, Zone 3 ~5:10–5:30/km, Zone 4 ~4:45–4:55/km. Doubles race running sits ~5:05–5:20/km. Do not open the first kilometre at threshold.

GYM NOTATION

3 × 8 = 3 sets of 8 reps.

RIR — Repetitions In Reserve: how many clean reps you could still perform at the end of the set. 2 RIR = stop with about 2 good reps left.

1RM — One-Repetition Maximum: the heaviest load you can lift for one technically clean rep.

%1RM

%1RM is a starting estimate. RIR decides the real load. Example: Squat 1 × 6 | 2 RIR | ~80% 1RM. If your 1RM is 100 kg, start near 80 kg. If you finish 6 reps and could still do about 2 clean reps, the load is correct. If you have no reps left, reduce the weight.

Top set: your heaviest work set for the day. **Back-off sets:** reduce the load slightly and complete the remaining sets at the prescribed RIR.

For machines and isolation work, do not test a true 1RM. Use the percentage only as a reference and match the prescribed RIR.

HYROX RACE LOAD — DOUBLES MIXED / MEN OPEN

Sled Push

152 kg total incl. sled

Farmers Carry

2 × 24 kg

Wall Balls

6 kg

Sled Pull

103 kg total incl. sled

Sandbag Lunges

20 kg

Ski / Row

Damper 5–6 for most race-specific work

SLED PLATES

Plates to add = target total load – empty sled weight. Example: 137 kg target incl. sled – 30 kg sled = 107 kg plates.

RACE-LOAD REFERENCES

80%

Push ~122 kg incl. sled

Pull ~82 kg incl. sled

Farmers ~2 × 20 kg

Lunges 16 kg

100%

Push 152 kg incl. sled

Pull 103 kg incl. sled

Farmers 2 × 24 kg

Lunges 20 kg

90%

Push ~137 kg incl. sled

Pull ~93 kg incl. sled

Farmers ~2 × 22 kg

Lunges 18 kg

105–110%

Push ~160–167 kg incl. sled

Pull ~108–113 kg incl. sled

SLED SURFACE

Sled surface matters: use total load as the reference, but adjust if your turf is unusually heavy or light so technique stays strong.

ESTIMATED TRAINING TIME

Every session shows a realistic time range. It includes a normal warm-up, planned rests and the main work.

Example: 75–90 min means most athletes should complete the session inside that window. Extra equipment queues or long setup time are not included.

CORE WORK IN THE GYM

Every gym day ends with a short core finisher using 1–2 movements. The four exercises rotate: V-Ups, Front Plank, Side Plank and Dumbbell Side Bend.

Keep core reps controlled. The goal is trunk strength and stability, not turning the finisher into another conditioning workout.

WEEK 1 LEARN

Learn the exact race split. Your pieces only. Finish with energy in reserve.

STATIONS

THIS WEEK

Train the page-1 split: 250 m ski, 6.25 m sled, 6 burpees, 50 m farmers, 25 m lunges, 10 wall balls. Do not chase singles distances. Rest = the partner's piece.

STRENGTH / GYM

MONDAY

RUNNING + HYROX

TUESDAY

RUN

EASY / AEROBIC

EST. 50–60 MIN

Keep every kilometre in Zone 2. Full sentences.
40–45 min Zone 2 at 5:35–6:10/km. This is not a test.

FOCUS

Protect the engine you already have. The limiter this block is stations, not kilometres.

THURSDAY

HYROX

RUN FOCUS

EST. 40–50 MIN

RUN INTENSITY: 5:10–5:25/KM. LEARN THE RACE PIECES.

Execution: Your Doubles pieces only. Stop fresh.

- 600 m run + 250 m SkiErg, damper 6. Then rest 250 m of time — that is the partner.
- 600 m run + 2 x 6.25 m Sled Push: first at 80% Race Load (~122 kg), then 6.25 m at 100% (152 kg) if the first hit is clean. Rest = partner between hits.
- 600 m run + 2 x 6.25 m Sled Pull: 80% then 100% (103 kg) if clean.
- 400 m run + 6 Burpee Broad Jumps, then 10 Wall Balls at 6 kg, women target 2.70 m.

FOCUS

6.25 m is half a 12.5 m lane. Arrive low, hand over, do not let the sled die mid-lane. Wall Balls are sets of 10, never 20.

SATURDAY

RUN

ENDURANCE

EST. 55–65 MIN

Mostly Zone 2. Optional short Zone 3 only if the week felt easy.
50 min Zone 2. Optional last 8 min Zone 3 only if the week has felt easy.

ALREADY FIT

You have already done 8 km with 10 burpees each kilometre. Do not repeat that grind this week. Save compromise work for Thursday and Sunday.

SUNDAY

HYROX

NO-RUN

EST. 40–55 MIN

Format: Your race share, once. Rest = partner. Keep standards.

- SkiErg 2 x 250 m, damper 6. Rest = 250 m time after each.
- Sled Push 4 x 6.25 m at 100% Race Load (152 kg). Rest 10–15 s — partner's 6.25 m.
- Sled Pull 4 x 6.25 m at 100% Race Load (103 kg). Same rest.
- Farmers Carry 2 x 50 m at 2 x 24 kg. Rest = partner's 50 m.
- Sandbag Lunges 2 x 25 m (or 10 steps) at 20 kg. Rest = partner.
- Wall Balls 5 x 10 at 6 kg, women target 2.70 m. Rest after every 10.
- Burpee Broad Jumps: 3 x 6. Rest after every 6.

FOCUS

This is her full station share. Do not add the partner's metres. The rest is the session.

WEEK 2 SPECIFIC

Race-split compromise. One quality run. Still not a full race.

COMPROMISE

THIS WEEK

Highest HYROX density. Thursday practises the split off the run. Sunday is the full Doubles work/rest simulation of her share. Saturday stays easy.

STRENGTH / GYM

MONDAY

CORE FINISHER

1) V-Ups 2 x 10 2) Front Plank 2 x 35 s

RUNNING + HYROX

TUESDAY

RUN

QUALITY / THRESHOLD

EST. 45–55 MIN

QUALITY AT 4:50/KM.

One threshold dose. Repeatable, not a time trial.

5 x 2 min at 4:50/km. Recovery: 2 min very easy jogging after each effort.

QUALITY CUE

The efforts should feel hard but repeatable. If the last interval is much slower than the first, you started too fast.

FOCUS

One threshold dose in 25 days is enough. Do not add extra Z4.

THURSDAY

HYROX

RUN FOCUS

EST. 50–65 MIN

RUN INTENSITY: PLANNED DOUBLES RUNNING, 5:05–5:20/KM.

Execution: Race pieces off the run. Continuous, not for time.

- 800 m run + 250 m SkiErg, damper 6. Rest 250 m time, then 250 m ski (her two turns).
- 800 m run + 4 x 6.25 m Sled Push at 100% Race Load (152 kg). Rest 10–15 s between hits.
- 800 m run + 4 x 6.25 m Sled Pull at 100% Race Load (103 kg). Same rest.
- 800 m run + 6 Burpee Broad Jumps, rest, 6 more.
- Finish with 10 x 10 Wall Balls at 6 kg, women target 2.70 m. Rest between the tens.

FOCUS

If a 6.25 m stall, reset hips and finish that hit. Do not turn four hits into a 25 m grind.

SATURDAY

RUN

EASY / AEROBIC

EST. 45–55 MIN

Easy on purpose after Thursday's circuit.

40 min Zone 2 + 4 x 20-second controlled accelerations.

FOCUS

Legs should feel better than Thursday, not worse. No long run.

SUNDAY

HYROX

NO-RUN

EST. 45–60 MIN

Format: Full Doubles split. Work your piece, rest the partner's piece.

- SkiErg 2 x 250 m, damper 6. After each 250 m, rest exactly 250 m time.
- Sled Push 4 x 6.25 m at 152 kg. Rest 10–15 s after every hit.
- Sled Pull 4 x 6.25 m at 103 kg. Same rest.
- RowErg 1 x 500 m, damper 6. Then sit 500 m time — one change only. Do not row the second 500 m.
- Farmers Carry 2 x 50 m at 2 x 24 kg. Rest = partner's 50 m.
- Sandbag Lunges 2 x 25 m (or 10 steps) at 20 kg. Rest = partner.
- Wall Balls 5 x 10 at 6 kg, women target 2.70 m. Burpees 4 x 6.

FOCUS

Practise the handover: off, breathe, on. The row is one 500 m jump, never 4 x 250 m.

WEEK 3 SHARPEN

One ~60% doubles rehearsal. Then start taking fatigue out.

REHEARSAL

THIS WEEK

Thursday is the only session that may leave you tired. Everything else stays crisp. Do not add a second rehearsal.

STRENGTH / GYM

MONDAY

GYM 1

Legs / Shoulders

EST. 40–55 MIN

Wall Ball

3 × 10 at 6 kg, women target 2.70 m

CORE FINISHER

1) Front Plank 2 × 40 s 2) Dumbbell Side Bend 2 × 12 / side

RUNNING + HYROX

TUESDAY

RUN

EASY / AEROBIC

EST. 45–55 MIN

Easy on purpose. Thursday is the rehearsal.

35–40 min Zone 2 + 4 × 20-second controlled accelerations.

FOCUS

Keep Tuesday easy so Thursday can be the rehearsal.

THURSDAY

HYROX

RUN FOCUS

EST. 60–75 MIN

RUN INTENSITY: PLANNED DOUBLES EFFORT.
THIS IS A ~60% RACE REHEARSAL.

Execution: Race order. Your split only. Do not race the clock.

- 1 800 m run + SkiErg 250 m, rest 250 m time, 250 m, damper 6.
- 2 800 m run + Sled Push 4 × 6.25 m at 152 kg. Rest 10–15 s between hits.
- 3 800 m run + Sled Pull 4 × 6.25 m at 103 kg. Same rest.
- 4 800 m run + Burpee Broad Jumps 6 + rest + 6 + rest + 6.
- 5 800 m run + RowErg 500 m, damper 6. Then rest 500 m time. No second 500 m.
- 6 800 m run + Farmers 50 m + rest + 50 m at 2 × 24 kg.
- 7 800 m run + Lunges 25 m + rest + 25 m at 20 kg (or 10 steps + 10 steps).
- 8 800 m run + Wall Balls 5 × 10 at 6 kg, women target 2.70 m.

NOT A RACE

You are not running 8 × 1 km or doing the partner's metres. This session is order, handover and composure.

FOCUS

The main rehearsal of the page-1 split. If a piece breaks, take the partner rest and continue.

SATURDAY

RUN

EASY / AEROBIC

EST. 40–50 MIN

Finish feeling better than you started.

35–40 min easy Zone 2 only.

FOCUS

Finish feeling better than you started.

SUNDAY

HYROX

NO-RUN

EST. 35–45 MIN

Format: Second-half split only. Quality. Stop fresh.

- 1 RowErg 500 m, damper 5–6. Then rest 500 m time.
- 2 Farmers Carry 50 m + rest + 50 m at 2 × 24 kg.
- 3 Sandbag Lunges 25 m + rest + 25 m at 20 kg (or 10 + 10 steps).
- 4 Wall Balls 5 × 10 at 6 kg, women target 2.70 m.

FOCUS

Row 500, two farmer's 50s, two lunge 25s, tens on the wall ball. That is the race second half.

WEEK 4 TAPER

Days 22–25. Arrive light. Race day is Day 25.

RACE

THIS WEEK

Start this plan so Day 25 is race day. Monday–Sunday labels are the weekly rhythm; if the race is Saturday, Day 1 is a Wednesday. No extra circuits.

STRENGTH / GYM

MONDAY

Activation

GYM 1

EST. 30–40 MIN

Back Squat

2 × 5 | 4 RIR | ~ 70% 1RM | Rest 3 min

STRENGTH

Hip Thrust

2 × 8 | 4 RIR | Rest 90 s

Military Press

2 × 5 | 4 RIR | Rest 2 min

Lateral Raise

1–2 × 12 | 4 RIR | Rest 60 s

CORE FINISHER

1) Front Plank 1–2 × 30 s 2) Side Plank 1 × 20 s / side

RUNNING + HYROX

TUESDAY

EASY / TAPER

RUN

EST. 35–45 MIN

Keep the run genuinely easy.

25–30 min Zone 2 + 4 × 20-second controlled accelerations.

TAPER

Keep the run genuinely easy. The goal is freshness for Day 25, not extra kilometres.

WEDNESDAY

ACTIVATION

HYROX

EST. 25–35 MIN

RUN INTENSITY: ZONE 3. ACTIVATION ONLY.

Execution: Stop fresh. Tomorrow is the race.

- 1 600 m run + 250 m SkiErg, damper 5.
- 2 600 m run + 50 m Farmers Carry at 80% Race Load (~2 × 20 kg).
- 3 600 m run + 10 Wall Balls at 6 kg, women target 2.70 m.

FOCUS

One ski piece, one farmer's piece, one wall-ball ten. No sled, no lunges, no second 500 m.

THURSDAY

RACE DAY

HYROX

EST. 75–100 MIN

HYROX DOUBLES MIXED — MEN OPEN LOADS.

Race. Both run all 8 × 1 km. Stations use the page-1 split.

- 1 Warm-up: 10 min easy jog, 3 strides, 150 m ski, 10 wall balls, 6.25 m empty / light sled.
- 2 Open every run at 5:10–5:20/km. Threshold 4:50/km is not the race-run pace.
- 3 Ski 2 × 250 m · Push 4 × 6.25 m · Pull 4 × 6.25 m · Burpees every 6 · Row 1 × 500 m · Farmers 2 × 50 m · Lunges 2 × 25 m · Wall Balls 5 × 10.
- 4 Loads: Push 152 kg · Pull 103 kg · Farmers 2 × 24 kg · Lunges 20 kg · Wall Ball 6 kg, women target 2.70 m.
- 5 Hand over before form collapses. A clean 6.25 m is faster than a stalled half-lane.

WALL BALL

10 and off. She throws to 2.70 m. He throws to 3.00 m. Same 6 kg ball. Tens beat a crash.

FOCUS

Run the split you trained. Do not invent longer pieces on the floor.
