

12-WEEK HYBRID PERFORMANCE PLAN

A structured strength, running and HYROX progression designed to build performance without turning every day into a maximal session.

- STRENGTH
- RUNNING
- HYROX

YOUR 12-WEEK TARGET

Build strength, improve half-marathon endurance, master HYROX race loads and finish the block with a full HYROX simulation in control — including the capacity to attack 100 Wall Balls with confidence.

THE RULE THAT MATTERS

Keep easy sessions genuinely easy. Seven training days only work when intensity is controlled. Core work is built into every gym day so HYROX sessions can stay specific.

YOUR WEEKLY STRUCTURE

MONDAY	Gym 1 — Legs / Shoulders / Triceps
TUESDAY	Easy / Aerobic — Run
WEDNESDAY	Rest
THURSDAY	Run Focus — HYROX
FRIDAY	Rest
SATURDAY	Rest
SUNDAY	Rest

Set the plan up once. Then train.

RUNNING ZONES

Use the Running Zones Calculator on the website before your first run. Train from your own Zone 1–5 values; do not copy another athlete's pace.

Z1 Recovery

Very easy

Z2 Easy

Full sentences

Z3 Steady

Short sentences

Z4 Hard

Controlled threshold

Z5 Very hard

Short work only

Target 21.1 km pace

Your 21.1 km goal pace

RUN WARM-UP

8–10 min easy Zone 1–2 before every run. Example only: an athlete might have Zone 2 around 5:30–6:15/km, Zone 3 around 5:00–5:30/km, Zone 4 around 4:35–5:00/km and a target 21.1 km pace around 4:45/km. Your calculator values always take priority.

GYM NOTATION

3 × 8 = 3 sets of 8 reps.

RIR — Repetitions In Reserve: how many clean reps you could still perform at the end of the set. 2 RIR = stop with about 2 good reps left.

1RM — One-Repetition Maximum: the heaviest load you can lift for one technically clean rep.

%1RM

%1RM is a starting estimate. RIR decides the real load. Example: Squat 1 × 6 | 2 RIR | ~80% 1RM. If your 1RM is 100 kg, start near 80 kg. If you finish 6 reps and could still do about 2 clean reps, the load is correct. If you have no reps left, reduce the weight.

Top set: your heaviest work set for the day. **Back-off sets:** reduce the load slightly and complete the remaining sets at the prescribed RIR.

For machines and isolation work, do not test a true 1RM. Use the percentage only as a reference and match the prescribed RIR.

HYROX RACE LOAD — OPEN MEN

Sled Push

152 kg total incl. sled

Farmers Carry

2 × 24 kg

Wall Balls

6 kg

Sled Pull

103 kg total incl. sled

Sandbag Lunges

20 kg

Ski / Row

Damper 5–6 for most race-specific work

SLED PLATES

Plates to add = target total load – empty sled weight. Example: 137 kg target incl. sled – 30 kg sled = 107 kg plates.

RACE-LOAD REFERENCES

80%

Push ~122 kg incl. sled

Pull ~82 kg incl. sled

Farmers ~2 × 20 kg

Lunges 16 kg

100%

Push 152 kg incl. sled

Pull 103 kg incl. sled

Farmers 2 × 24 kg

Lunges 20 kg

90%

Push ~137 kg incl. sled

Pull ~93 kg incl. sled

Farmers ~2 × 22 kg

Lunges 18 kg

105–110%

Push ~160–167 kg incl. sled

Pull ~108–113 kg incl. sled

sled

SLED SURFACE

Sled surface matters: use total load as the reference, but adjust if your turf is unusually heavy or light so technique stays strong.

ESTIMATED TRAINING TIME

Every session shows a realistic time range. It includes a normal warm-up, planned rests and the main work.

Example: 75–90 min means most athletes should complete the session inside that window. Extra equipment queues or long setup time are not included.

CORE WORK IN THE GYM

Every gym day ends with a short core finisher using 1–2 movements. The four exercises rotate: V-Ups, Front Plank, Side Plank and Dumbbell Side Bend.

Keep core reps controlled. The goal is trunk strength and stability, not turning the finisher into another conditioning workout.

MONDAY

Legs / Shoulders / Triceps

GYM 1
EST. 80–95 MIN

Back Squat

STRENGTH

Top 1 × 6 | 2 RIR | ~ 80% 1RM | Back-off 3 × 6 | 3 RIR | ~ 77% 1RM | Rest 3–4 min

Leg Curl

3 × 12 | 3 RIR | ~ 62–65% 1RM | Rest 90–120 s

Military Press

STRENGTH

Top 1 × 6 | 2 RIR | ~ 80% 1RM | Back-off 3 × 6 | 3 RIR | ~ 77% 1RM | Rest 3 min

Overhead Triceps Extension

3 × 10–12 | 3 RIR | ~ 62–68% 1RM | Rest 90 s

Leg Press

3 × 10 | 3 RIR | ~ 67–70% 1RM | Rest 2 min

Hip Thrust

3 × 10 | 3 RIR | ~ 68–70% 1RM | Rest 2 min

Lateral Raise

3 × 12–15 | 3 RIR | ~ 55–62% 1RM | Rest 90 s

Rope Pushdown

2 × 12–15 | 2 RIR | ~ 58–65% 1RM | Rest 60–90 s

CORE FINISHER

1) V-Ups 2 × 12–15 2) Side Plank 2 × 30–40 sec / side

TUESDAY

RUN

EASY / AEROBIC

EST. 65–75 MIN

Session: 50 min Zone 2 + 6 × 20-second controlled accelerations. Easy walk/jog: 60–90 sec after each.

CONTROLLED ACCELERATION

Build speed smoothly for 20 sec until fast but relaxed (about 85–90% max speed). Do not sprint. Then walk/jog easily 60–90 sec.

EXAMPLE ONLY

If your Zone 2 is 5:30–6:15/km, keep the 50 min inside that range. The 20-sec accelerations are fast and relaxed, not all-out sprints.

THURSDAY

HYROX

RUN FOCUS

EST. 45–55 MIN

RUN INTENSITY: ZONE 3 FOR EVERY RUN.

Execution: 90 sec easy between blocks.

- 1 800 m run + 500 m SkiErg, damper 5.
- 2 800 m run + 20 m Sled Push at 80% Race Load (Open Men: ~122 kg total incl. sled).
- 3 800 m run + 50 m Farmers Carry at 100% Race Load (Open Men: 2 × 24 kg).
- 4 800 m run + 20 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

Learn to return to smooth running after different types of fatigue: erg, heavy push, grip/carry and Wall Balls.

MONDAY

Legs / Shoulders / Triceps

GYM 1
EST. 80–95 MIN

Back Squat

Top 1 × 5 | 2 RIR | ~ 82% 1RM | Back-off 3 × 6 | 2 RIR | ~ 80% 1RM | Rest 3–4 min

STRENGTH

Leg Curl

3 × 12 | 2 RIR | ~ 65–67% 1RM | Rest 90–120 s

Military Press

Top 1 × 5 | 2 RIR | ~ 82% 1RM | Back-off 3 × 6 | 2 RIR | ~ 80% 1RM | Rest 3 min

STRENGTH

Overhead Triceps Extension

3 × 10–12 | 2 RIR | ~ 65–70% 1RM | Rest 90 s

Leg Press

3 × 10 | 2 RIR | ~ 70–72% 1RM | Rest 2 min

Hip Thrust

3 × 10 | 2 RIR | ~ 70–72% 1RM | Rest 2 min

Lateral Raise

3 × 12–15 | 2 RIR | ~ 58–65% 1RM | Rest 90 s

Rope Pushdown

2 × 12–15 | 2 RIR | ~ 58–65% 1RM | Rest 60–90 s

CORE FINISHER

1) Front Plank 2 × 45–60 sec 2) Dumbbell Side Bend 2 × 12–15 / side

TUESDAY

QUALITY / FARTLEK

RUN
EST. 50–60 MIN

Session: 8 × 2 min in Zone 4. Recovery: 2 min easy Zone 1–2 after each effort.

EXAMPLE ONLY

If your Zone 4 is 4:35–5:00/km, each 2-min effort sits inside that range. Recover very easily, for example around 5:45–6:30/km.

QUALITY CUE

The efforts should feel hard but repeatable. If the last interval is much slower than the first, you started too fast.

THURSDAY

RUN FOCUS

HYROX
EST. 55–65 MIN

RUN INTENSITY: ZONE 3, PROGRESSING TOWARD LOW ZONE 4 ONLY IF CONTROLLED.

Execution: 60–90 sec easy between blocks.

- 1 1km run + 20 m Sled Push at 90% Race Load (Open Men: ~137 kg total incl. sled).
- 2 1km run + 20 m Sled Pull at 90% Race Load (Open Men: ~93 kg total incl. sled).
- 3 1km run + 40 m Burpee Broad Jumps.
- 4 1km run + 500 m RowErg, damper 5–6.
- 5 1km run + 25 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

Sled-compromised running, then burpee rhythm and rowing under fatigue.

MONDAY

Legs / Shoulders / Triceps

GYM 1
EST. 80–95 MIN

Back Squat

Top 1 × 4 | 1-2 RIR | ~ 85% 1RM | Back-off 3 × 5 | 2 RIR | ~ 82% 1RM | Rest 3–4 min

STRENGTH

Leg Curl

3 × 10-12 | 1-2 RIR | ~ 68-73% 1RM | Rest 90–120 s

Military Press

Top 1 × 4-5 | 1-2 RIR | ~ 84-86% 1RM | Back-off 3 × 5 | 2 RIR | ~ 82% 1RM | Rest 3 min

STRENGTH

Overhead Triceps Extension

3 × 8-12 | 1-2 RIR | ~ 68-75% 1RM | Rest 90 s

Leg Press

3 × 8-10 | 1-2 RIR | ~ 73-78% 1RM | Rest 2 min

Hip Thrust

3 × 8-10 | 1-2 RIR | ~ 73-78% 1RM | Rest 2 min

Lateral Raise

3 × 12-15 | 1 RIR | ~ 62-68% 1RM | Rest 90 s

Rope Pushdown

2 × 12-15 | 1 RIR | ~ 62-68% 1RM | Rest 60–90 s

CORE FINISHER

1) V-Ups 2 × 12-15 2) Side Plank 2 × 30-40 sec / side

TUESDAY

EASY / AEROBIC

RUN

EST. 70–80 MIN

Session: 55 min Zone 2 + 6 × 20-second controlled accelerations.

CONTROLLED ACCELERATION

Build speed smoothly for 20 sec until fast but relaxed (about 85-90% max speed). Do not sprint. Then walk/jog easily 60-90 sec.

EXAMPLE ONLY

If your Zone 2 is 5:30–6:15/km, stay inside that range for the easy block. Your calculator values always take priority.

THURSDAY

RUN FOCUS

HYROX

EST. 55–70 MIN

RUN INTENSITY: YOUR TARGET HALF-MARATHON PACE OR LOW ZONE 4. STAY CONTROLLED.

Execution: Move continuously; take up to 90 sec easy only if technique begins to break down.

- 1 km run + 500 m SkiErg, damper 6.
- 1 km run + 100 m Farmers Carry at 100% Race Load (Open Men: 2 × 24 kg).
- 1 km run + 500 m RowErg, damper 6.
- 1 km run + 50 m Sandbag Lunges at 100% Race Load (Open Men: 20 kg).
- 1 km run + 30 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

Aerobic control across two ergs, grip fatigue and the first meaningful lunge-to-Wall-Ball finish.

THIS WEEK

Reduce volume, keep movement quality high and finish sessions feeling better than you started.

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 60–75 MIN

Back Squat

3 × 5 | 4 RIR | ~ 75–77% 1RM | Rest 3–4 min

STRENGTH

Leg Press

2 × 10 | 4 RIR | ~ 62–65% 1RM | Rest 2 min

Leg Curl

2 × 12 | 4 RIR | ~ 57–60% 1RM | Rest 90–120 s

Hip Thrust

2 × 10 | 4 RIR | ~ 62–65% 1RM | Rest 2 min

Military Press

3 × 5 | 4 RIR | ~ 75–77% 1RM | Rest 3 min

STRENGTH

Lateral Raise

2 × 12–15 | 4 RIR | ~ 50–57% 1RM | Rest 90 s

Overhead Triceps Extension

2 × 10–12 | 4 RIR | ~ 58–63% 1RM | Rest 90 s

Rope Pushdown

1–2 × 12–15 | 4 RIR | ~ 50–57% 1RM | Rest 60–90 s

CORE FINISHER

1) Front Plank 1–2 × 45–60 sec 2) Dumbbell Side Bend 1–2 × 12–15 / side

RUNNING + HYROX

TUESDAY

RUN

QUALITY / FARTLEK

EST. 45–55 MIN

Session: 6 × 90 sec in Zone 4, Recovery: 2 min very easy running after each effort.

RECOVERY WEEK

This session is easy on purpose. Finish feeling better than you started. Do not add extra work.

QUALITY CUE

The efforts should feel hard but repeatable. If the last interval is much slower than the first, you started too fast.

THURSDAY

HYROX

RUN FOCUS

EST. 35–45 MIN

RUN INTENSITY: ZONE 2–3. RECOVERY WEEK.

Execution: Keep breathing under control. No racing.

- 600 m run + 250 m SkiErg, damper 4.
- 600 m run + 40 m Farmers Carry at 80% Race Load (Open Men: ~2 × 20 kg).
- 600 m run + 250 m RowErg, damper 4.
- 600 m run + 15 Wall Balls at 100% Race Load (Open Men: 6 kg).

RECOVERY

Loads stay reduced and the work stays technical. This is not a race rehearsal — finish fresh.

FOCUS

Easy transitions and clean technique. Finish fresh.

WEEK 5 WEEK A

Increase intensity without sacrificing running quality.

INTENSIFICATION

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1
EST. 75–90 MIN

Back Squat

STRENGTH

Top 1 × 5 | 2 RIR | ~ 82% 1RM | Back-off 3 × 5 | 3 RIR | ~ 79% 1RM | Rest 3–4 min

Leg Curl

3 × 8–12 | 3 RIR | ~ 62–68% 1RM | Rest 90–120 s

Military Press

STRENGTH

Top 1 × 5 | 2 RIR | ~ 82% 1RM | Back-off 3 × 5 | 3 RIR | ~ 79% 1RM | Rest 3 min

Overhead Triceps Extension

3 × 8–12 | 3 RIR | ~ 65–72% 1RM | Rest 90 s

Leg Press

3 × 8–10 | 3 RIR | ~ 70–74% 1RM | Rest 2 min

Hip Thrust

3 × 8–10 | 3 RIR | ~ 70–74% 1RM | Rest 2 min

Lateral Raise

3 × 12–15 | 3 RIR | ~ 55–62% 1RM | Rest 90 s

Rope Pushdown

2 × 10–15 | 2 RIR | ~ 60–68% 1RM | Rest 60–90 s

CORE FINISHER

1) V-Ups 2 × 12–15 2) Side Plank 2 × 30–40 sec / side

RUNNING + HYROX

TUESDAY

EASY / AEROBIC

RUN

EST. 75–85 MIN

Session: 60 min Zone 2 + 6 × 20-second controlled accelerations.

CONTROLLED ACCELERATION

Build speed smoothly for 20 sec until fast but relaxed (about 85–90% max speed). Do not sprint. Then walk/jog easily 60–90 sec.

EXAMPLE ONLY

If your Zone 2 is 5:30–6:15/km, stay inside that range for the easy block. Your calculator values always take priority.

THURSDAY

RUN FOCUS

HYROX

EST. 55–70 MIN

RUN INTENSITY: LOW ZONE 4, CONTROLLED. COMPLETE 6 X 800 M.

Execution: Use the next station after each run. Short transition only.

- 1 800 m + 750 m SkiErg, damper 6.
- 2 800 m + 25 m Sled Push at 100% Race Load (Open Men: 152 kg total incl. sled).
- 3 800 m + 25 m Sled Pull at 100% Race Load (Open Men: 103 kg total incl. sled).
- 4 800 m + 40 m Burpee Broad Jumps.
- 5 800 m + 750 m RowErg, damper 6.
- 6 800 m + 100 m Farmers Carry at 100% Race Load (Open Men: 2 × 24 kg).
- 7 Finish with 25 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

Broad station exposure while holding repeatable running intensity.

Increase intensity without sacrificing running quality.

INTENSIFICATION

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 75-90 MIN

Back Squat

Top 1 × 4 | 2 RIR | ~ 85% 1RM | Back-off 3 × 5 | 2 RIR | ~ 82% 1RM | Rest 3–4 min

Leg Curl

3 × 10-12 | 2 RIR | ~ 65-70% 1RM | Rest 90-120 s

Military Press

Top 1 × 4 | 2 RIR | ~ 85% 1RM | Back-off 3 × 5 | 2 RIR | ~ 82% 1RM | Rest 3 min

Overhead Triceps Extension

3 x 8-12 | 2 RIR | ~ 68-74% 1RM | Rest 90 s

CORE FINISHER

1) Front Plank 2 x 45-60 sec 2) Dumbbell Side Bend 2 x 12-15 / side

Leg Press

3 x 8-10 | 2 RIR | ~ 73-77% 1RM | Rest 2 min

Hip Thrust

3 x 8 | 2 RIR | ~ 75% 1RM | Rest 2 min

Lateral Raise

3 × 12-15 | 2 RIR | ~ 58-65% 1RM | Rest 90 s

Rope Pushdown

2 × 10⁻¹⁵ | 1-2 RIR | ~ 64-72% 1RM | Rest 60-90 s

TUESDAY

QUALITY / FARTLEK

RUN

EST. 55-65 MIN

Session: 6 × 3 min in Zone 4. Recovery: 2 min Zone 2 after each effort.

QUALITY CUE

The efforts should feel hard but repeatable. If the last interval is much slower than the first, you started too fast.

EXAMPLE ONLY

If Zone 4 is 4:35–5:00/km, each quality effort sits there. Recover very easily, for example around 5:45–6:30/km.

THURSDAY

RUN FOCUS

HYROX

EST. 60-75 MIN

RUN INTENSITY: AROUND YOUR TARGET HALF-MARATHON PACE / LOW ZONE 4. COMPLETE 5 X 1 KM.

Execution: Short transitions; control the first 300 m after each station.

- 1 1 km + 20 m Sandbag Lunges at 100% Race Load (Open Men: 20 kg) + 20 m Wall Balls at 100% Race Load (Open Men: 6 kg).
- 2 1 km + 500 m SkiErg, damper 6.
- 3 1 km + 25 m Sled Push at 105% Race Load (Open Men: ~160 kg total incl. sled).
- 4 1 km + 500 m RowErg, damper 6.
- 5 1 km + 25 m Sled Pull at 105% Race Load (Open Men: ~108 kg total incl. sled) + 50 m Farmers Carry at 100% Race Load (Open Men: 2 x 24 kg).

FOCUS

Mixed station pairings. Learn to run well after both local leg fatigue and full-body fatigue.

THIS WEEK

Training becomes more specific. Protect running quality and HYROX execution; avoid turning accessory work into extra tests.

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 75–90 MIN

Back Squat

STRENGTH

Top 1 × 3 | 1-2 RIR | ~ 88% 1RM | Back-off 3 × 4 | 2 RIR | ~ 84-85% 1RM | Rest 3–4 min

Leg Curl

3 × 8-10 | 1-2 RIR | ~ 72-78% 1RM | Rest 90–120 s

Military Press

STRENGTH

Top 1 × 3 | 1-2 RIR | ~ 88% 1RM | Back-off 3 × 4 | 2 RIR | ~ 84-85% 1RM | Rest 3 min

Overhead Triceps Extension

3 × 8-10 | 1 RIR | ~ 73-78% 1RM | Rest 90 s

Leg Press

3 × 8 | 1-2 RIR | ~ 78-80% 1RM | Rest 2 min

Hip Thrust

3 × 6-8 | 1-2 RIR | ~ 78-83% 1RM | Rest 2 min

Lateral Raise

3 × 12-15 | 1 RIR | ~ 62-68% 1RM | Rest 90 s

Rope Pushdown

2 × 10-12 | 1 RIR | ~ 70-74% 1RM | Rest 60–90 s

CORE FINISHER

1) V-Ups 2 × 12-15 2) Side Plank 2 × 30-40 sec / side

RUNNING + HYROX

TUESDAY

EASY / AEROBIC

RUN

EST. 70–80 MIN

Session: 60 min Zone 2. Keep the full run genuinely easy.

EASY RULE

You should be able to speak in full sentences. If you cannot, you are not in Zone 2 — slow down.

EXAMPLE ONLY

If your Zone 2 is 5:30–6:15/km, stay inside that range for the easy block. Your calculator values always take priority.

THURSDAY

RUN FOCUS

HYROX

EST. 60–75 MIN

RUN INTENSITY: PLANNED HYROX RACE EFFORT. DO NOT CHASE PACE EARLY.

Execution: Half-HYROX first half. Keep transitions race-like.

- 1 km run + 1,000 m SkiErg, damper 6.
- 1 km run + 50 m Sled Push at 100% Race Load (Open Men: 152 kg total incl. sled).
- 1 km run + 50 m Sled Pull at 100% Race Load (Open Men: 103 kg total incl. sled).
- 1 km run + 80 m Burpee Broad Jumps.
- Finish with 40 Wall Balls at 100% Race Load (Open Men: 6 kg), controlled, not for time.

FOCUS

First-half race sequencing plus Wall Ball skill under accumulated fatigue.

THIS WEEK

Reduce volume, keep movement quality high and finish sessions feeling better than you started.

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 55–70 MIN

Back Squat

3 × 4 | 4 RIR | ~ 76–78% 1RM | Rest 3–4 min

STRENGTH

Leg Press

2 × 10 | 4 RIR | ~ 62–65% 1RM | Rest 2 min

Leg Curl

2 × 12 | 4 RIR | ~ 57–60% 1RM | Rest 90–120 s

Hip Thrust

2 × 10 | 4 RIR | ~ 62–65% 1RM | Rest 2 min

Military Press

3 × 4 | 4 RIR | ~ 76–78% 1RM | Rest 3 min

STRENGTH

Lateral Raise

2 × 12–15 | 4 RIR | ~ 50–57% 1RM | Rest 90 s

Overhead Triceps Extension

2 × 10–12 | 4 RIR | ~ 58–63% 1RM | Rest 90 s

Rope Pushdown

1–2 × 12 | 4 RIR | ~ 55–58% 1RM | Rest 60–90 s

CORE FINISHER

1) Front Plank 1–2 × 45–60 sec 2) Dumbbell Side Bend 1–2 × 12–15 / side

RUNNING + HYROX

TUESDAY

RUN

QUALITY / FARTLEK

EST. 45–55 MIN

THURSDAY

HYROX

RUN FOCUS

EST. 35–45 MIN

Session: 5 × 2 min in Zone 4. Recovery: 2 min very easy running after each effort.

RECOVERY WEEK

This session is easy on purpose. Finish feeling better than you started. Do not add extra work.

QUALITY CUE

The efforts should feel hard but repeatable. If the last interval is much slower than the first, you started too fast.

RUN INTENSITY: ZONE 2–3. RECOVERY WEEK.

Execution: Stay smooth and finish fresh.

- 600 m run + 300 m RowErg, damper 4–5.
- 600 m run + 40 m Farmers Carry at 80% Race Load (Open Men: ~2 × 20 kg).
- 600 m run + 300 m SkiErg, damper 4–5.
- Finish with 20 Wall Balls at 100% Race Load (Open Men: 6 kg).

RECOVERY

Loads stay reduced and the work stays technical. This is not a race rehearsal — finish fresh.

FOCUS

Recovery with a different erg order. Keep all transitions relaxed.

THIS WEEK

Training becomes more specific. Protect running quality and HYROX execution; avoid turning accessory work into extra tests.

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 70–85 MIN

Back Squat

STRENGTH

Top 1 × 4 | 2 RIR | ~ 85% 1RM | Back-off 2 × 4 | 3 RIR | ~ 82% 1RM | Rest 3–4 min

Leg Curl

3 × 10 | 3 RIR | ~ 67% 1RM | Rest 90–120 s

Military Press

STRENGTH

Top 1 × 4 | 2 RIR | ~ 85% 1RM | Back-off 2 × 4 | 3 RIR | ~ 82% 1RM | Rest 3 min

Overhead Triceps Extension

3 × 8–10 | 3 RIR | ~ 68–72% 1RM | Rest 90 s

Leg Press

3 × 8 | 3 RIR | ~ 72% 1RM | Rest 2 min

Hip Thrust

3 × 8 | 3 RIR | ~ 72% 1RM | Rest 2 min

Lateral Raise

3 × 12 | 3 RIR | ~ 60–62% 1RM | Rest 90 s

Rope Pushdown

2 × 10–12 | 2 RIR | ~ 65–70% 1RM | Rest 60–90 s

CORE FINISHER

1) V-Ups 2 × 12–15 2) Side Plank 2 × 30–40 sec / side

RUNNING + HYROX

TUESDAY

EASY / AEROBIC

RUN

EST. 65–75 MIN

Session: 50–55 min Zone 2 + 4 × 20-second controlled accelerations.

CONTROLLED ACCELERATION

Build speed smoothly for 20 sec until fast but relaxed (about 85–90% max speed). Do not sprint. Then walk/jog easily 60–90 sec.

EXAMPLE ONLY

If your Zone 2 is 5:30–6:15/km, stay inside that range for the easy block. Your calculator values always take priority.

THURSDAY

RUN FOCUS

HYROX

EST. 55–70 MIN

RUN INTENSITY: PLANNED HYROX RACE EFFORT
— REPEATABLE AND CONTROLLED.

Execution: Second-half race specificity. Move continuously.

- 1 km run + 1,000 m RowErg, damper 6.
- 1 km run + 200 m Farmers Carry at 100% Race Load (Open Men: 2 × 24 kg).
- 1 km run + 100 m Sandbag Lunges at 100% Race Load (Open Men: 20 kg).
- 1 km run + 60 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

Exact second-half sequence: row, carry, lunges, Wall Balls.

THIS WEEK

Training becomes more specific. Protect running quality and HYROX execution; avoid turning accessory work into extra tests.

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 70–85 MIN

Back Squat

Top 1 × 3 | 1-2 RIR | ~ 88% 1RM | Back-off 3 × 3 | 2 RIR | ~ 85% 1RM | Rest 3–4 min

STRENGTH

Leg Curl

3 × 8-10 | 2 RIR | ~ 72-77% 1RM | Rest 90–120 s

Military Press

Top 1 × 3 | 1-2 RIR | ~ 88% 1RM | Back-off 3 × 3 | 2 RIR | ~ 85% 1RM | Rest 3 min

STRENGTH

Overhead Triceps Extension

3 × 8-10 | 2 RIR | ~ 72-75% 1RM | Rest 90 s

Leg Press

3 × 6-8 | 2 RIR | ~ 76-82% 1RM | Rest 2 min

Hip Thrust

3 × 6-8 | 2 RIR | ~ 76-82% 1RM | Rest 2 min

Lateral Raise

3 × 10-12 | 2 RIR | ~ 65-70% 1RM | Rest 90 s

Rope Pushdown

2 × 10 | 1-2 RIR | ~ 72-75% 1RM | Rest 60–90 s

CORE FINISHER

1) Front Plank 2 × 45–60 sec 2) Dumbbell Side Bend 2 × 12-15 / side

RUNNING + HYROX

TUESDAY

QUALITY / FARTLEK

RUN

EST. 50–60 MIN

Session: 3 × 8 min at your target half-marathon pace. Recovery: 3 min Zone 2 between blocks.

EXAMPLE ONLY

If your target 211 km pace is 4:45/km, run each 8-min block close to 4:45/km and keep the 3-min recoveries genuinely easy.

QUALITY CUE

The efforts should feel hard but repeatable. If the last interval is much slower than the first, you started too fast.

THURSDAY

RUN FOCUS

HYROX

EST. 75–90 MIN

RUN INTENSITY: PLANNED HYROX RACE EFFORT. THIS IS AN ~75% FULL-RACE REHEARSAL.

Execution: Use race order. Do not race the clock.

- 800 m run + 750 m SkiErg, damper 6.
- 800 m run + 40 m Sled Push at 100% Race Load (Open Men: 152 kg total incl. sled).
- 800 m run + 40 m Sled Pull at 100% Race Load (Open Men: 103 kg total incl. sled).
- 800 m run + 60 m Burpee Broad Jumps.
- 800 m run + 750 m RowErg, damper 6.
- 800 m run + 150 m Farmers Carry at 100% Race Load (Open Men: 2 × 24 kg).
- 800 m run + 75 m Sandbag Lunges at 100% Race Load (Open Men: 20 kg).
- 800 m run + 75 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

The main race rehearsal before the final simulation. Control every transition.

THIS WEEK

Training becomes more specific. Protect running quality and HYROX execution; avoid turning accessory work into extra tests.

STRENGTH / GYM

MONDAY

Legs / Shoulders / Triceps

GYM 1

EST. 65–80 MIN

Back Squat

Top 1 × 2-3 | 1 RIR | ~ 90-92% 1RM | Back-off 2 × 3 | 2 RIR | ~ 87% 1RM | Rest 3–4 min

STRENGTH

Leg Press

2 × 6-8 | 1-2 RIR | ~ 80-84% 1RM | Rest 2 min

Leg Curl

2 × 8-10 | 1-2 RIR | ~ 76-80% 1RM | Rest 90–120 s

Military Press

Top 1 × 2-3 | 1 RIR | ~ 90% 1RM | Back-off 2 × 3 | 2 RIR | ~ 87% 1RM | Rest 3 min

STRENGTH

Hip Thrust

2 × 6-8 | 1-2 RIR | ~ 80-84% 1RM | Rest 2 min

Lateral Raise

2 × 10-12 | 1 RIR | ~ 70-74% 1RM | Rest 90 s

Overhead Triceps Extension

2 × 8-10 | 1 RIR | ~ 75-78% 1RM | Rest 90 s

Rope Pushdown

2 × 10 | 1 RIR | ~ 74-76% 1RM | Rest 60–90 s

CORE FINISHER

1) V-Ups 2 × 12-15 2) Side Plank 2 × 30-40 sec / side

RUNNING + HYROX

TUESDAY

EASY / AEROBIC

RUN

EST. 55–65 MIN

Session: 45 min Zone 2 + 4 × 20-second controlled accelerations.

CONTROLLED ACCELERATION

Build speed smoothly for 20 sec until fast but relaxed (about 85-90% max speed). Do not sprint. Then walk/jog easily 60-90 sec.

EXAMPLE ONLY

If your Zone 2 is 5:30–6:15/km, stay inside that range for the easy block. Your calculator values always take priority.

THURSDAY

RUN FOCUS

HYROX

EST. 45–55 MIN

RUN INTENSITY: PLANNED HYROX RACE EFFORT. COMPLETE 4 X 1 KM.

Execution: Sharpening session: stop with energy in reserve.

- 1 km + 500 m SkiErg, damper 6.
- 1 km + 25 m Sled Push at 100% Race Load (Open Men: 152 kg total incl. sled).
- 1 km + 500 m RowErg, damper 6.
- 1 km + 30 Wall Balls at 100% Race Load (Open Men: 6 kg).

FOCUS

Sharp, race-specific work with low total fatigue.

WEEK 12 PEAK WEEK

Peak week. Arrive fresh for the full HYROX simulation.

PEAK

THIS WEEK

Do not chase extra fatigue. Keep the early week controlled and arrive at Sunday ready to execute a full HYROX with race-load confidence. If your actual half-marathon race is this week, replace Sunday's full HYROX and move the HYROX rehearsal to Week 10 or Week 11.

STRENGTH / GYM

MONDAY

GYM 1

Legs / Shoulders / Triceps

EST. 50-65 MIN

Back Squat

2 x 5 | 4 RIR | ~ 72-75% 1RM | Rest 3-4 min

STRENGTH

Leg Press

2 x 10 | 4 RIR | ~ 62-65% 1RM | Rest 2 min

Leg Curl

2 x 12 | 4 RIR | ~ 57-60% 1RM | Rest 90-120 s

Hip Thrust

2 x 10 | 4 RIR | ~ 62-65% 1RM | Rest 2 min

Military Press

2 x 5 | 4 RIR | ~ 72-75% 1RM | Rest 3 min

STRENGTH

Lateral Raise

2 x 15 | 4 RIR | ~ 50-55% 1RM | Rest 90 s

Overhead Triceps Extension

2 x 12 | 4 RIR | ~ 55-58% 1RM | Rest 90 s

Rope Pushdown

1-2 x 15 | 4 RIR | ~ 50-55% 1RM | Rest 60-90 s

CORE FINISHER

1) Front Plank 1-2 x 45-60 sec 2) Dumbbell Side Bend 1-2 x 12-15 / side

RUNNING + HYROX

TUESDAY

RUN

EASY / ACTIVATION

EST. 45-55 MIN

Session: 35-40 min Zone 2 + 4 x 20-second controlled accelerations.

CONTROLLED ACCELERATION

Build speed smoothly for 20 sec until fast but relaxed (about 85-90% max speed). Do not sprint. Then walk/jog easily 60-90 sec.

EXAMPLE ONLY

If your Zone 2 is 5:30-6:15/km, stay inside that range for the easy block. Your calculator values always take priority.

THURSDAY

HYROX

RUN FOCUS

EST. 30-40 MIN

RUN INTENSITY: ZONE 3. ACTIVATION ONLY.

Execution: Stop fresh. Sunday is the full HYROX simulation.

- 600 m run + 250 m SkiErg, damper 5.
- 600 m run + 40 m Farmers Carry at 80% Race Load (Open Men: ~2 x 20 kg).
- 600 m run + 15 Wall Balls at 100% Race Load (Open Men: 6 kg).

ACTIVATION

Keep every station short and crisp. Stop with energy in reserve — Sunday is the session that matters.

FOCUS

Activation, rhythm and confidence. No fatigue chasing.
