

RACE STRATEGY

You both run every kilometre. Only one person works on a station at a time. Three sessions together: Friday 18 September, Saturday 26 September, Thursday 1 October. This is the split.

- DOUBLES MIXED
- MEN OPEN LOADS
- YOUR SPLIT

HYROX DOUBLES RULES

1. You both run all 8 x 1 km. The runs are not split.
2. On a station, one person works at a time. The other stays in the area, ready, and does not touch the equipment.
3. You may change whenever you want. You cannot push, pull or throw at the same time.
4. Leave the station only when the work is finished. Incomplete distance or reps = a penalty.
5. Mixed Open uses men's loads: sled push 152 kg, sled pull 103 kg, farmer's 2 x 24 kg, lunges 20 kg, wall ball 6 kg.
6. Apolline throws to the 2.70 m target. Gaston throws to the 3.00 m target. Same 6 kg ball.
7. Standards: squat below parallel on wall balls, hips extended at the top. The whole sled must cross the line.

HOW YOU SPLIT

STATION	RACE SPLIT	APOLLINE
Ski 1000 m	250 m each, twice each. 4 pieces.	2 x 250 m
Sled Push 50 m	6.25 m each (half of a 12.5 m lane), 4 times each. 8 pieces.	4 x 6.25 m
Sled Pull 50 m	Same as push: 6.25 m, 4 times each.	4 x 6.25 m
Burpee Broad Jump 80 m	Change every 6 burpees until 80 m is done.	Sets of 6
Row 1000 m	500 m each. One change only, to save time.	1 x 500 m
Farmer's 200 m	50 m each. 4 pieces, 4 changes. Twice each.	2 x 50 m
Lunges 100 m	25 m each, or 10 steps. 4 pieces, 4 changes.	2 x 25 m
Wall Balls 100	10 each, rotating, to 100. Apolline 2.70 m / Gaston 3.00 m.	5 x 10

WHEN YOU TRAIN ALONE

Do your own pieces only, then stand still for the partner's piece. The rest is part of the session. Circuits use these race pieces, not singles distances.

HYROX DOUBLES APOLLINE/GASTON

14 September – 9 October. Race Friday 9 October. Four sessions a week, always run then HYROX, never two HYROX days in a row. Tuesday is a Functional Run with Leman Movement Team (squat each km).

- APOLLINE
- GASTON
- HYROX

YOUR TARGET

Race Friday 9 October. Both of you run all 8 x 1 km. Stations use the page-1 split. Threshold 4:30/km. Race running sits in Zone 4 at 4:45–4:50/km. When you train alone, do your own share and rest for the partner’s share.

THE RULE THAT MATTERS

Alternate every time: run day, HYROX day, run day, HYROX day. Tuesday = Functional Run with Leman Movement Team — squat at the end of each kilometre. Pace-change strong parts are 4:50/km. Together: Fri 18 Sep, then 70% doubles simulations on Sat 26 Sep and Thu 1 Oct.

KEY DATES

TUESDAY	Functional Run — Leman Movement Team, squat each km
HYROX	Always the day after a run — never two HYROX days in a row
PACE-CHANGE	Fractioned run — strong parts at 4:50/km
HYROX	Together or solo. 70% simulations: 26 Sep and 1 Oct
TOGETHER	Fri 18 Sep · Sat 26 Sep (70%) · Thu 1 Oct (70%)
RACE	Friday 9 October — Doubles Mixed, Men Open

Set the plan up once. Then train.

RUNNING ZONES

Threshold 4:30/km. Zone 2 5:10–5:40/km. Zone 3 4:55–5:10/km. Zone 4 race run 4:45–4:50/km. Pace-change strong parts 4:50/km.

Z1 Recovery

Walk / shake-out

Z2 Easy

5:10–5:40/km

Z3 Steady

4:55–5:10/km

Z4 Race run

4:45–4:50/km

Threshold

4:30/km

Pace-change strong

4:50/km

RUN WARM-UP

8–10 min easy Zone 1–2 before every run. Threshold 4:30/km. Zone 2 ~5:10–5:40/km. Zone 4 race running 4:45–4:50/km. Do not open the first kilometre at 4:30.

IF A MEN'S LOAD WILL NOT MOVE

Sled push / pull. If 152 / 103 kg will not move cleanly, use 80% (~122 / ~82 kg) and keep 6.25 m hits. If that still stalls, use Women Open (102 / 78 kg) for technique, then try 1–2 men's-load hits. Never grind a dead sled — reset the hips or change.

Farmer's carry. If 2 × 24 kg will not stay up, use 2 × 20 kg or 2 × 16 kg. Cut pieces to 25 m and change more often. Gaston can take 3 of the 4 pieces if grip goes.

Wall balls. If 6 kg breaks down, switch to 4 kg at 2.70 m and keep sets of 10. Or stay on 6 kg and drop to sets of 5–8. Gaston can take more tens. Depth and the target matter more than forcing 10.

RACE-DAY RULE

Hand over before form collapses. A clean short piece beats a stalled lane. Gaston can take an extra piece so the station still finishes.

RACE LOAD — DOUBLES MIXED / MEN OPEN

Sled Push

152 kg total incl. sled

Sled Pull

103 kg total incl. sled

Farmer's Carry

2 × 24 kg

Sandbag Lunges

20 kg

Wall Balls

6 kg

Ski / Row

Damper 5–6 for most race-specific work

SLED PLATES

Plates to add = target total load – empty sled weight.
Example: 137 kg target incl. sled – 30 kg sled = 107 kg plates.

RACE-LOAD REFERENCES

80%

Push ~122 kg incl. sled

Pull ~82 kg incl. sled

Farmers ~2 × 20 kg

Lunges 16 kg

90%

Push ~137 kg incl. sled

Pull ~93 kg incl. sled

Farmers ~2 × 22 kg

Lunges 18 kg

100%

Push 152 kg incl. sled

Pull 103 kg incl. sled

Farmers 2 × 24 kg

Lunges 20 kg

105–110%

Push ~160–167 kg incl. sled

Pull ~108–113 kg incl. sled

SLED SURFACE

Sled surface matters: use total load as the reference, but adjust if your turf is unusually heavy or light so technique stays strong.

ESTIMATED TRAINING TIME

Every session shows a realistic time range. It includes a normal warm-up, planned rests and the main work.

Example: 75–90 min means most athletes should complete the session inside that window. Extra equipment queues or long setup time are not included.

THIS WEEK

Never two HYROX days in a row. Tuesday Functional Run. Wednesday HYROX. Thursday pace-change. Friday 18 together.

RUNNING + HYROX

TUE 15 SEP

RUN

FUNCTIONAL RUN

EST. 50–60 MIN

ZONE 2. LEMAN MOVEMENT TEAM.

Easy Functional Run. Squat at the end of every kilometre.

- 1 6 km Zone 2 at 5:10–5:40/km.
- 2 At the end of each kilometre: 12 squats (bodyweight or light goblet), then jog the next kilometre. Leman Movement Team.

LEMAN MOVEMENT TEAM

Functional Run: easy kilometres + squat each km.

FOCUS

The run stays easy. Squats are crisp, not a sprint. This is Leman Movement Team training.

THU 17 SEP

RUN

PACE CHANGE

EST. 40–50 MIN

FRACTIONED. STRONG PARTS AT 4:50/KM.

Change pace. Strong parts use 4:50/km as the reference.

- 1 10 min easy Zone 2.
- 2 6 x 2 min at 4:50/km. Recover 90 s very easy jogging after each.
- 3 8 min easy close.

FOCUS

4:50/km is the strong-part reference, not 4:30. If the last block fades, you started too hard.

WED 16 SEP

HYROX

HYROX

EST. 40–50 MIN

RUN 4:45–4:50/KM. FIRST-HALF PIECES ONLY.

Ski, sleds, burpees. Stop fresh. Friday is together.

- 1 600 m run + 250 m SkiErg, damper 6. Rest 250 m time.
- 2 600 m run + 2 x 6.25 m Sled Push: 80% (~122 kg), then 100% (152 kg) if the first hit is clean.
- 3 600 m run + 2 x 6.25 m Sled Pull: 80% then 100% (103 kg) if clean.
- 4 400 m run + 2 x 6 Burpee Broad Jumps. Rest after every 6.

FOCUS

No row, farmer's, lunges or wall balls today. Those are Friday with Gaston. If a sled will not move, drop the load — see the guide.

FRI 18 SEP

HYROX

HYROX TOGETHER

EST. 50–65 MIN

WITH GASTON. 600 M RUNS AT 4:45–4:50/KM.

Second-half split. Do not race the clock.

- 1 600 m run together.
- 2 RowErg 500 m + 500 m, damper 6. One change only.
- 3 600 m run together.
- 4 Sandbag Lunges 4 x 25 m (or 10 steps) at 20 kg. Alternate.
- 5 600 m run together.
- 6 Farmer's Carry 4 x 50 m at 2 x 24 kg. Alternate. Scale to 2 x 20 or 2 x 16 if needed.
- 7 600 m run together.
- 8 Wall Balls 6 x 10 at 6 kg (60 reps). Apolline 2.70 m / Gaston 3.00 m. Tens only.

FOCUS

Apolline: 1 x 500 m row, 2 x 25 m lunges, 2 x 50 m farmer's, 3 x 10 wall balls. One works, one waits.

WEEK 2 SPECIFIC

21–27 September. Thursday 24 is a no-run circuit. Saturday 26 is a 70% doubles simulation.

COMPROMISE

THIS WEEK

Run / pace-change / HYROX / rest / HYROX. Never two HYROX days in a row. Friday 25 is off so Saturday can be the 70% simulation.

RUNNING + HYROX

TUE 22 SEP

RUN

FUNCTIONAL RUN

EST. 50–60 MIN

ZONE 2. LEMAN MOVEMENT TEAM.

Easy Functional Run. Squat at the end of every kilometre.

- 7 km Zone 2 at 5:10–5:40/km.
- At the end of each kilometre: 12 squats, then jog on. Leman Movement Team.

FOCUS

Keep talking on the run. Squats stay controlled.

THU 24 SEP

HYROX

HYROX NO-RUN

EST. 40–55 MIN

NO RUN. STATION CIRCUIT ONLY.

No-run circuit. Your race pieces. Rest = the partner's piece.

- SkiErg 2 × 250 m, damper 6. Rest = 250 m time after each.
- Sled Push 4 × 6.25 m at 152 kg, or 80% if it will not move. Rest 10–15 s.
- Sled Pull 4 × 6.25 m at 103 kg, or 80% if needed. Same rest.
- Farmer's Carry 2 × 50 m at 2 × 24 kg, or 2 × 20 / 2 × 16 if grip goes.
- Sandbag Lunges 2 × 25 m (or 10 steps) at 20 kg.
- Wall Balls 5 × 10 at 6 kg or 4 kg, 2.70 m. Burpees 3 × 6.

FOCUS

No running today. Friday is off. Saturday 26 is the 70% doubles simulation with Gaston.

WED 23 SEP

RUN

PACE CHANGE

EST. 45–55 MIN

FRACTIONED. STRONG PARTS AT 4:50/KM.

Strong parts use 4:50/km as the reference.

- 10 min easy Zone 2.
- 5 × 3 min at 4:50/km. Recover 2 min very easy jogging after each.
- 8 min easy close.

QUALITY CUE

If the last interval is much slower than the first, you started too fast.

FOCUS

4:50/km on the strong parts. Not 4:30. Repeatable, not a time trial.

SAT 26 SEP

HYROX

HYROX TOGETHER

EST. 70–85 MIN

WITH GASTON. 70% DOUBLES SIMULATION. RUNS AT 4:45–4:50/KM.

70% race-order simulation. Page-1 split. Do not race the clock.

- 700 m run + SkiErg 4 × 250 m alternate, damper 6.
- 700 m run + Sled Push 8 × 6.25 m at 152 kg. Alternate. Scale if needed.
- 700 m run + Sled Pull 8 × 6.25 m at 103 kg. Alternate.
- 700 m run + Burpee Broad Jumps, change every 6, to ~60 m.
- 700 m run + RowErg 500 m + 500 m, damper 6. One change.
- 700 m run + Farmer's 4 × 50 m at 2 × 24 kg. Alternate.
- 700 m run + Lunges 4 × 25 m at 20 kg (or 10 steps). Alternate.
- 700 m run + Wall Balls in 10s to ~70 reps. Apolline 2.70 m / Gaston 3.00 m.

70% SIMULATION

Race order, race split, not race intensity. Runs at 4:45–4:50/km.

FOCUS

About 70% of race volume: 700 m runs, full split, ~70 wall balls. Keep energy. Next 70% simulation is 1 October.

WEEK 3 SHARPEN

28 September – 4 October. Thursday 1 Oct is the 70% simulation. Saturday 3 Oct is an intense HYROX circuit.

REHEARSAL

THIS WEEK

Functional Run, pace-change, 70% simulation, Friday off, then Saturday intense HYROX. Never two HYROX days in a row.

RUNNING + HYROX

TUE 29 SEP

RUN

FUNCTIONAL RUN

EST. 45–55 MIN

ZONE 2. LEMAN MOVEMENT TEAM.

Easy Functional Run. Squat at the end of every kilometre.

- 5–6 km Zone 2 at 5:10–5:40/km.
- At the end of each kilometre: 10–12 squats, then jog on. Leman Movement Team.

FOCUS

Keep it light before Thursday's 70% simulation. No sleds today.

THU 1 OCT

HYROX

HYROX TOGETHER

EST. 70–85 MIN

WITH GASTON. 70% DOUBLES SIMULATION. RUNS AT 4:45–4:50/KM.

70% race-order simulation. Page-1 split. Do not race the clock.

- 700 m run + SkiErg 4 × 250 m alternate, damper 6.
- 700 m run + Sled Push 8 × 6.25 m at 152 kg. Alternate. Scale if needed.
- 700 m run + Sled Pull 8 × 6.25 m at 103 kg. Alternate.
- 700 m run + Burpee Broad Jumps, change every 6, to ~60 m.
- 700 m run + RowErg 500 m + 500 m, damper 6. One change.
- 700 m run + Farmer's 4 × 50 m at 2 × 24 kg. Alternate. Scale if grip goes.
- 700 m run + Lunges 4 × 25 m at 20 kg (or 10 steps). Alternate.
- 700 m run + Wall Balls in 10s to ~70 reps. Apolline 2.70 m / Gaston 3.00 m.

70% SIMULATION

Race order, race split, not a full race. Runs at 4:45–4:50/km. Keep energy for 9 October.

FOCUS

Same 70% format as 26 September. If a piece breaks, take the rest and continue. Friday is off. Saturday is an intense circuit.

WED 30 SEP

RUN

PACE CHANGE

EST. 40–50 MIN

FRACTIONED. STRONG PARTS AT 4:50/KM.

Stay crisp for tomorrow. Strong parts at 4:50/km.

- 10 min easy Zone 2.
- 4 × 2 min at 4:50/km. Recover 2 min very easy.
- 8 min easy close.

FOCUS

Shorter than last week. Thursday is the session that matters.

SAT 3 OCT

HYROX

HYROX

EST. 45–60 MIN

INTENSE CIRCUIT. RUNS AT 4:45–4:50/KM.

Hard station density. Your race pieces. Short rest. Not a full simulation.

- 4 rounds. Rest 90–120 s between rounds only.
- 500 m run at 4:45–4:50/km.
- 250 m SkiErg, damper 6.
- 2 × 6.25 m Sled Push at 152 kg, or 80% if it will not move.
- 250 m RowErg, damper 6.
- 10 Wall Balls at 6 kg, 2.70 m + 6 Burpee Broad Jumps.
- After the 4 rounds: Farmer's 2 × 50 m + Lunges 2 × 25 m at race load, or scaled.

INTENSE

Friday was off on purpose. Stop a round if form collapses, then finish the remaining rounds.

FOCUS

This is meant to be hard. Keep the run at 4:45–4:50/km. Scale sleds, farmer's or wall balls if a men's load will not move.

WEEK 4 TAPER

5–9 October. Arrive light. Race is Friday 9 October.

RACE

THIS WEEK

Functional Run, short HYROX, easy shake-out, race. Never two HYROX days in a row.

RUNNING + HYROX

TUE 6 OCT

RUN

FUNCTIONAL RUN

EST. 35–45 MIN

ZONE 2. LEMAN MOVEMENT TEAM. TAPER.

Short Functional Run. Squat at the end of every kilometre.

- 1 4 km Zone 2 at 5:10–5:40/km.
- 2 At the end of each kilometre: 8–10 squats, then jog on. Leman Movement Team.

FOCUS

Feel the rhythm. Do not chase fatigue.

THU 8 OCT

RUN

REST / SHAKE-OUT

EST. 15–25 MIN

Arrive tomorrow light.

Rest, or 15–20 min easy jog + 3 strides. No stations. No squats.

FOCUS

A run / rest day after HYROX. If you feel the need to train, you are already doing enough.

WED 7 OCT

HYROX

HYROX

EST. 25–35 MIN

ACTIVATION ONLY. RUNS AT 4:45–4:50/KM.

Stop fresh. Friday is the race.

- 1 600 m run + 250 m SkiErg, damper 5.
- 2 600 m run + 50 m Farmer's at 80% (~2 x 20 kg) or lighter.
- 3 600 m run + 10 Wall Balls at 6 kg, 2.70 m.

FOCUS

One ski piece, one farmer's piece, one wall-ball ten. No sled, no lunges.

FRI 9 OCT

HYROX

RACE DAY

EST. 75–100 MIN

HYROX DOUBLES MIXED — MEN OPEN LOADS.

Race. You both run all 8 x 1 km. Stations use the page-1 split.

- 1 Warm-up: 10 min easy jog, 3 strides, 150 m ski, 10 wall balls, 6.25 m empty / light sled.
- 2 Open every run at 4:45–4:50/km. Threshold 4:30/km is not the race-run pace.
- 3 Ski 2 x 250 m · Push 4 x 6.25 m · Pull 4 x 6.25 m · Burpees every 6 · Row 1 x 500 m · Farmer's 2 x 50 m · Lunges 2 x 25 m · Wall Balls 5 x 10.
- 4 Loads: Push 152 kg · Pull 103 kg · Farmer's 2 x 24 kg · Lunges 20 kg · Wall Ball 6 kg. Apolline 2.70 m / Gaston 3.00 m.
- 5 If a men's load will not move, change sooner — Gaston takes the extra piece.

WALL BALLS

10 and off. Apolline 2.70 m. Gaston 3.00 m. Same 6 kg ball.

FOCUS

Run the split you practised on 18 Sep, 26 Sep and 1 Oct.
